Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

The present invention directed to designating an operation type. The independent claims identify the uniquely distinct feature "advanced notice information indicating whether the operation type of an operation immediately subsequent to the operation designated by the designation information is the same as the operation type of the operation designated by the designation information." The closest prior art Sasaki (US Pat. No. 6,226,447) either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
